12 May 2015

Thank you for your response to our email and your interest in joining the Road to Paris Climate Coalition.

Our first action is to sign on to this letter which we will publish in the Mail & Guardian and other newspapers, as well as post on social media. Please advise if we can add your name to the following:

*The Road to Paris Climate Coalition urges the South African climate negotiators to present our country's stated target for a low carbon future to the United Nations transparently and on time. South Africa's current stated goals are to re-commit to the conditional pledge made by President Zuma in Copenhagen to reduce emissions by 34 percent by 2020 and 42 percent by 2025 (below business as usual levels).*

*We also call on the South African government, business and communities to implement at least 40% renewable energy by 2030 to reduce carbon emissions and help to address our energy crisis.*

*As Climate Coalition partners we further hope to develop awareness on climate change within the South African community so that people are informed and can take more meaningful action to address the climate crisis.*

We will then publish all coalition members' names.

For more information on our Road to Paris campaign please see - <http://climatereality.co.za/road-to-paris/>.

We look forward to your prompt and positive response so that we can publish this in the next few weeks.

Sincerely

Jeunesse Park

ACRP Branch Manager
